PROGRAM DETAILS

The proposed commission basis is 15% of eligible product revenue after discounts, excluding tax, shipping, canceled orders and refunded amounts. No commission is paid for recruitment alone. BKG confirms eligible products, referral attribution, self-purchase rules, payout timing and payment details in the affiliate agreement before activation.

Affiliates use BKG-approved materials and clearly disclose their affiliate relationship. The LAB products must be represented according to their research-only labeling; do not make medical, treatment or human-use claims. Peptides are not endorsed by Brian Gay.

Submitting an application does not guarantee approval. BKG will contact you with the next steps following review.
